

THE MID-ATLANTIC'S PREMIUM WET-CAST CONCRETE PRODUCTS

Made to withstand the area's harsh weather conditions and look so much like natural stone, you won't know the difference.

QUALITY YOU CAN TRUST

We understand how overwhelming it can be to choose landscape construction products on the web or at a big box store—the employees can't offer expertise, and you're unsure of what you need. All you want is a beautiful outdoor space to gather with friends and family. That's why—since 1998—we've been a niche, family-owned concrete manufacturer in Pennsylvania, providing premium quality products exclusively to independent dealers in the Mid-Atlantic region. Working with dealers that have seasoned industry professionals readily available to answer your questions, assist with product selection, quantities needed, and set up deliveries means you can get excited about your project again. You should be able to trust that your investment will be just as beautiful and functional years later as it was on day one—and with the expert guidance of Kennedy Blue Mountain Stone and our exclusive dealers, we guarantee it.

COLORS AVAILABLE

2 *There's no better way to make product selections than by visiting your local dealer to view samples and ensure your satisfaction with color selections. Variations of concrete coloring will occur within products. Viewing small samples within your project space is always recommended.*

BLUE MOUNTAIN STONE

Capture the beauty of natural Pennsylvania Blue Stone with the durability of wet-cast concrete in popular pattern sizes and complementary stepping stones.
