When the most sustainable option is also the better quality product, the decision is clear.

The environmentally superior choice is Natural Facing real stone veneer.

SUSTAINABLE SOURCING: Natural Facing real stone veneer is sourced from regional quarries practicing responsible and sustainable extraction methods.

NO HARMFUL CHEMICALS: Unlike some manufactured products, Natural Facing real stone veneer does not release volatile organic compounds (VOCs) or other harmful chemicals.

LONGEVITY AND DURABILITY: The durability of natural stone means that it doesn't need maintenance or regular replacement like other materials.

NATURAL AND RECYCLABLE: Our stone veneer doesn't contribute to landfill waste. At the end of its life cycle, it can be recycled or repurposed, unlike many man-made materials.

With multiple shapes and colors,
there is a Natural Facing blend for every style.

Once you choose Natural Facing real stone veneer, you will keep coming back.

Natural Facing's stone experts work tirelessly to provide quality products and exceptional customer service.

EASIER INSTALLATION & REDUCED WASTE: Our cutting and quality assurance processes provide more usable stone on every palette. This reduces waste and helps installers get to work faster on producing well-balanced installations.

EXPERTLY CRAFTED BLENDS: Our in-house quarry experts understand the nuances of natural stone and meticulously select our blends based on quality, consistency, and aesthetics.

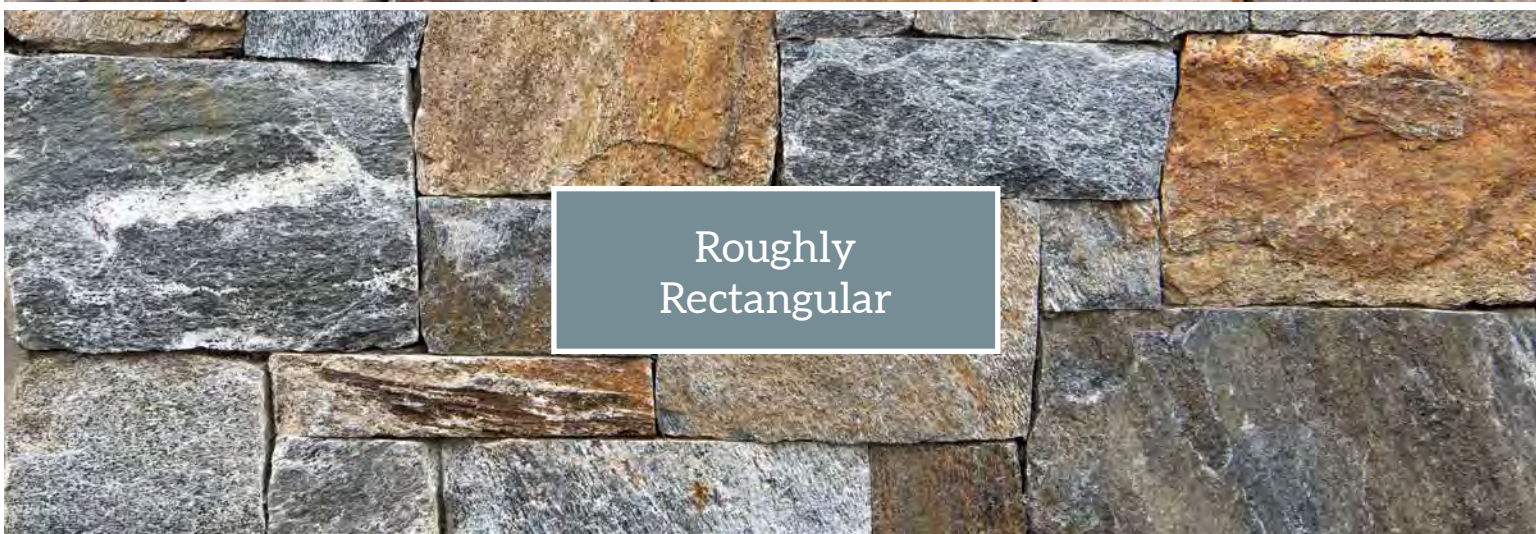

RELIABLE SOURCING & EFFICIENT LOGISTICS: Our supply chain and operations are meticulously designed to keep your projects moving smoothly and on schedule.

A COMPANY THAT STANDS BEHIND ITS PRODUCTS: Our proactive and responsive customer support team works closely with dealers to support architects, designers, installers, and owners from selection to finished project.
